More info coming soon to onehealth.tennessee.edu/rally

The UT One Health Initiative (UT OHI) is a campus-wide initiative dedicated to **protecting and promoting the health of all life on earth**. We tackle complex issues that threaten **the health of humans, animals, plants, and the environment**. By engaging UT faculty and students from **all disciplines**, we work together to address these issues and find **solutions** with global implications. **Come see how you can get involved!**
